MODULE DRAWER 5PRT D/S 2	1000 mm	542.5 mm	364 mm	Blue	1	094086

AGR: 07.001

Module with 5 Drawers and Chemistry, Upper Part

- Individual: By the simple plug-in system, the modules can be assembled according to customer requirements
- Modular design with modules defined for a variable storage solution
- Very robust due textured blue surface
- Space-saving storage
- Optimally aligned for Consumables
- Maximum flexibility by tilting and displaceability of all shelves and metal bracket
- Compact and stable: Modules (1000 x 542.5 x 364 mm) with cross members at the front and side for greater stability

Application Area

- Clean and simple storage of items that are used in daily work.

Characteristics

- Clear: The modules are specifically designed for forms of packaging and carton sizes. A clearly arranged and easy removal of the goods, optimal inventory control and maximum storage space utilization are guaranteed.

BERA® System Boxes

- Breakproof
- Content can be seen without opening the box
- Transparent cover with label tray, lockable in 2 positions
- Easy removal
- Can be firmly connected to stacks or rows
- Universal use: Single, on wall rails or shelves

Application Area

- Dust-free storage of small parts

Characteristics

- Polypropylene (PP) boxes provide a good chemical stability against many acids, solutions, alcohol and the most engine oils. Damage may occur when in contact with fuel. Fold cover polystyrene (PS), here damage may occur when in contact with acids, engine oils and fuel.

Storage Boxes

- shock resistant
- Stackable
- Temperature resistant up to +70 °C
- With label compartment

Application Area

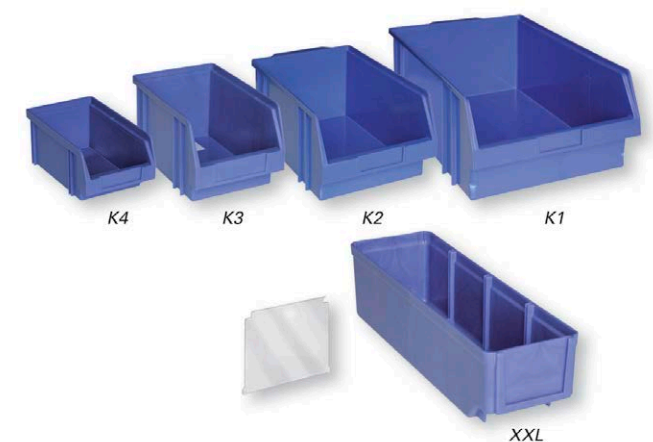

- Storage of small parts

Characteristics

- Sizes 1 and 2 made of polystyrene (PS) provide very good chemical resistance against many solutions and alcohol. Damage may occur in contact with acids, motor oils and fuel.
- Sizes 3 - 5 made of polypropylene (PP), offers very good chemical resistance to many acids, alkalis, alcohol and most motor oils. Damage may occur in contact with gasoline

Hints

- Suitable for labels of different sizes 1 – 3 (28 x 84 mm) prod.-no. 965158
- Suitable for labels of different sizes 4, 5 (16 x 60 mm) prod.-no. 965159

INTERNAL/Approved (2019-03-23 00:12:39)

Divider sets for Premium tool cases

- Adaptable
 - ▶ Aluminium dividers create additional separations on the bottom of the cases
 - ▶ Complete sets with end and middle caps, cuttable to the size needed
 - ▶ Provide dedicated spaces according to the tool sizes or subdivisions for small parts

Application Area

- Premium tool cases

Processing Information

- Instruction manual available
- Measure the required length for the divider, from the scale to the middle of the divider
- Reduce the length by 15mm: the space is required for the end and middle caps
- Cut the divider at the calculated length
- Put on the middle and end caps, and fix the middle caps with the screws
- Put the divider into the bottom scale of your case

Set of 2 dividers, dimensions 440x60x30 mm

Set of 3 dividers, dimensions 470x70x30 mm
